

# Small. Portable. Professional.

## DELL MOBILE PROJECTOR: M318WL

### Small yet grand

Less than 1lb, but packed with all the features you need to present with ease.

### Present with ease

Store content directly on the 7GB internal drive or just plug in your USB with content and start presenting.

### Lamp-free, hassle free

LED technology means no lamp replacements, ever.

### Portable power

The Dell Power Companion allows on-the-go power for presentations.

# Small. Portable. Professional.

## DELL MOBILE PROJECTOR: M318WL

### ON-THE-GO PROJECTOR

**Grab-and-go mobility:** At only 0.8lb and 4.1" wide, 4.1" long and 1.4" high, it's both lightweight and ultra small, literally fitting in the palm of your hand. Its small size means it'll easily fit into any size bag and is so light you'll barely even notice you're carrying it.

**Less is more:** With integrated features including built-in speaker, 3.5mm audio jack and integrated keypad, your presentation is totally self-contained. Less things to carry means less things to forget. Also compatible with Dell laptop adaptors with a 7.4mm barrel, so there's no need to carry extra accessories.

### SO SMALL, YET SO GRAND

**Clear:** Deliver professional presentations that are both clear and easy on the eyes at 500 ANSI lumens (max.).

**Colorful:** BrilliantColor™ technology delivers WXGA (1280x800) resolution and a 10,000:1 typical contrast ratio for crisp, colorful images.

**Long projection life:** The mercury-free LED technology in the M318WL projector provides up to 20,000 hours (normal mode) of service and best of all it does not require LED/lamp/bulb replacement.

### PRESENT WITH EASE

**Easy access:** Store content directly on the 7GB internal drive, so your content is ready when you are.

**PC-free presentations:** Easily present directly from the projector's internal storage using a wide range of Office and multimedia files types. Or just plug in your USB drive with content and start presenting.

**Lose the wires:** Connect wirelessly<sup>2</sup> and present from your laptop, tablet or mobile device with the optional wireless dongle.

### PORTABLE POWER

**End the outlet search:** No power outlet? No problem. The M318WL projector achieves 2 hours of life on average, when connected to the optional Dell Power Companion, enough for most presentations or even movies<sup>5</sup>.

### RELIABLE AND SECURE

**Reliable support:** Your M318WL projector is backed by support with the 2-Year Advanced Exchange Warranty<sup>1</sup> and the LED system is covered under the same warranty for up to 20,000 hours of LED life. If you opt to extend your warranty to 3-, 4-, or 5-years, the LED system is still covered for 20,000 hours use or the term of the warranty.

**Get the most from your projector:** The laser system light source of the projector lasts for up to 20,000 hours of use. If the projector is used for 8 hours each working day, it would take up to 10 years to reach 20,000 hours<sup>2</sup>.

**Project and protect:** The integrated Kensington security port and password protection functionality help keep your M318WL secure against theft and unauthorized access.
